IS THE ONE NOW**

President Favors Building

A SPECIAL MISSION

Army Officers Return, After
Thoroughly Investigating
the Proposed Canal
Route.

Washington, Oct. 14.—Considerable doubt exists as to whether President Roosevelt will decide upon the Nicaragua route for the isthmian canal, and there is excellent authority for the statement that he has by no means abandoned the Panama project.

The president still believes that Colombia will agree to proposals substantially identical to those in the treaty which the congress of the South American republic declines to ratify. It is intimated broadly that the president is by no means averse to constructing the canal by the Panama route whether Colombia agrees or not.

May Send Special Message.

For some days this question has been the subject of conferences between President Roosevelt and some of the leading public men. The president holds that Colombia has no right to stand in the way of a great project which will be beneficial to the whole world.

Nothing will be done looking toward the construction of a Nicaragua canal for the present at least, and it is more than likely that President Roosevelt will lay his views on the Panama route before congress in a special message or incorporate them in his regular message.

Return From Special Mission.

Capt. Chauncey B. Humphrey of the Third Infantry and Lieut. Ernest Van D. Murphy of the Twenty-seventh Infantry have arrived in Washington from Venezuela and the isthmus of Panama, where they had been engaged on an important mission. It is intimated that the mission of these two officers was mainly the outcome of an apprehension, based on information that the foreign complications in which Venezuela became involved a year ago were merely the forerunner of more important complications that might seriously involve the United States.

The Panama visit was merely a side issue, born of the prospect of a secession of the states of Panama and Cauca from Colombia on account of the rejection of the canal treaty by the Colombian congress.

Visit to Panama.

The two officers were accredited to the United States legation at Caracas as military attaches. They went to Venezuela in June, but spent little time in Caracas, going direct into the interior of the country and making a thorough examination of the matters into which they had been directed to inquire. Afterwards they went to the isthmus of Panama, where they spent a week in obtaining information which the war department was anxious to secure. While there they had conferences with Maj. Block of the United States engineers, who was sent to the isthmus in connection with the Panama canal and to watch the political conditions closely.

LESS THAN FORMERLY**

Situation in the East Now Looks Much More Like Peace Than War.

**CLERKS AND FOREMEN
MUST FURNISH BONDS**

Employees of the Government Printing Office Must Give Security to Retain Positions.

Washington, Oct. 14.—As an accompaniment to the oath of office recently administered to every employee of the government printing office a bond in the sum of \$10,000 has been required of the chief clerk of the printing division, the foreman of the binding division, the assistant foreman of each of the nineteen divisions and several other officials of the bureau. About forty bonds in all have been placed on file at the office.

Up to this time no bond has been required of the officials of the government printing office and for that reason the action taken has caused a stir among labor leaders.

Notwithstanding that officials stated that the recent bond order had no connection with the recently inaugurated "open shop" policy of the administration and was designed merely to maintain a more vigilant management of the office, it is the prevailing belief among labor leaders that the act of bonding the foremen and assistant foremen of the office, a large majority of whom are affiliated with labor unions, is for the purpose of more clearly defining to the employees of the office the relationship of organized labor to the administration.

Streets Are Barricaded, Banks Closed,

Workmen.

Armentieres, France, Oct. 14.—Bands of strikers this morning pillaged linen stores, and stretched pieces of linen across the streets, to prevent cavalry charges. The banks also have been attacked, all the houses are closed, and the inhabitants are in a state of terror. There are troops here, but they are insufficient to maintain order. The strikers barricaded all the corners of the streets and set fire to a factory. The cavalry charged along the streets, in spite of the obstructions, wounding a number of persons.

Dowie's Army Starts on Its Tour of Redemption of
Wicked New York—Eight Train Loads of
Disciples Leave Zion City Today.

(Special By Scripps-McLae.)
Zion City, Ill., Oct. 14.—With the redemption of New York as their object three thousand members of the Restoration Post departed today at one o'clock on eight special trains amid scenes remarkable for their completeness of preparation, in which the master hand of Dowie was ever-present. Only those who were going on the pilgrimage were allowed at the depot. The stay-at-homes having been ordered by Dowie to remain on the hills a half-mile away and from that point watch the departure. Half an hour before the first train pulled out the tabernacle bell tolled and every Zionist fell on his knees, where he stood and prayed for two minutes. The scene was most impressive. When the train was filled Dowie posted himself at a convenient spot on the platform and with uplifted hands repeatedly said "Peace to thee," continuing until the last car had passed him. Same program was repeated when the other trains departed. Everything moved with the precision of clockwork.

Wealthy Farmer Dies in Fire Clasped
in Arms of Woman He Had
Just Married.

Cedar Lake, Ind., Oct. 14.—In the vain effort to save the woman to whom he had just been married, William W. Potter, a wealthy farmer of Hobart, was burned to death in the fire that destroyed the Hetzler house. When the fire had burned itself out the charred bodies of the man and woman were found in the ruins locked in each other's arms. The woman was formerly Mrs. Otis Guernsey of Alnsworth and she and Potter left that village to be married.

The other guests in the hotel, which had just been reopened for the hunting season, escaped without serious injury by jumping from the windows. How the fire started in the hotel is not known. The building was owned by Adam Hetzler and was formerly a roadhouse with an unsavory reputation. It is in the neighborhood of several places where crimes have been committed in the past.

The barking of a watch dog awakened a guest in the third story and the occupants of the hotel awoke to find themselves surrounded by crackling flames.

Potter was one of the last to escape from the burning building. When he found that his companion was still in the burning structure, whose roof was a mass of flames, he tore away from those who sought to stay him and ran up the burning stairway. It was the last time he was seen alive.

**DECLARES FAITH
CURIST GUILTY**

New York Court of Ap-
peals Renders Impor-
tant Decision in
Noted Case.

PHYSICIAN NEEDED

Medical Care in Case of Sick-
ness of Minors, Is
Now Made Com-
pulsory.

New York, Oct. 14.—Dependence upon faith healing in sickness is declared to be criminal negligence in a decision handed down by the Court of Appeals. The case under consideration was that of J. Luther Pierson, a faith curist of White Plains, N. Y., whose 16 months' old adopted daughter died of bronchial pneumonia without medical attendance.

The conviction was secured under the penal code, which holds that "a person who omits without lawful excuse to perform a duty by law imposed upon him, to furnish food, clothing, shelter or medical attendance to a minor is guilty," etc.

Reverse Lower Court.

Justice Bartlett, in the prevailing opinion in the Appellate division, held that the "medical attendance" referred to in the statute does not mean exclusively the attendance of a medical practitioner in the general sense of the term, and the Appellate division reversed the conviction. The Court of Appeals now sustains the first decision, which imposed a fine of \$500 or 500 days' imprisonment.

In its opinion written by Judge Haight, the Court of Appeals says: "It would seem that the legislative intent is reasonably clear, although possibly more precise language could have been employed. The section of the code under which the indictment was found contemplates that there are persons upon whom the law casts a duty of caring for minors."

Question of Law.
"Sitting as a court of law for the purpose of construing and determining the meaning of statutes, we have nothing to do with variances in religious belief, and have no power to determine which is correct. We place no limitation upon the power of the mind over the body, the power of faith to dispel disease, or the power of the Supreme Being to heal the sick. We merely declare the law as given us by the legislature. We find no error on the part of the trial court that called for a reversal."

SMITH PLAYS IN ROCKFORD

Music Liked by All—Highly Commended by Ecstacy Papers.

A Janesville orchestra played for a swell party in Rockford last Monday evening and it is the first time that these Bower City musicians have been called to that town.

Mr. Smith and his six talented players were the ones honored and their fame is spreading to many parts of Wisconsin and northern Illinois. The dance was given by the Bonnie Elvare club and was the most elaborate given this year. The music was complimented by all.

REPAIR ORGANS IN CHURCHES

Expert Tuner from Milwaukee at Work in Four Churches.

The pipe organs in St. Patrick's, Christ, Trinity and Court Street M. E. churches are out of tune and have been known to be in this state for some time by the organists of the respective churches. C. W. Murdoch, the Church City tuner, is in the city attending to the instruments. Considerable care and time is necessary for the work which will cost in the neighborhood of \$200 before it is finished.

HOPEFUL CONDITIONS.
The action of the United States Steel company in declaring a half of one per cent quarterly dividend, instead of one per cent, as heretofore, has had a healthful influence on the market, and conditions in Wall street are more hopeful. Henry Clews, in writing on the situation says:

"For some time past Wall street has been hunting for troubles, and like most individuals engaged in that doubtful occupation it has found them with greater promptness and abundance than anticipated. The result has been a mood of undue despondency from which recovery is slow, because the patient has been weakened by previous over indulgence and requires time for rest and recuperation. Nevertheless, the outlook is more assuring than a month ago, apprehension is disappearing, a number of important doubts are now a matter of history, and there is no longer any cause for anxiety concerning the crops, money or even the steel dividend, which was the least element of uncertainty. The reduction of the steel dividend was both wise and timely, having been fully discounted by the previous decline in the stock. Public opinion no doubt has much to do with forcing this conservative action by the directors, and had two per cent always been paid, instead of four, the stock would probably have been selling at double its present value. The best corporation management is that which builds up a reserve, not one that distributes all the net earnings to stockholders; the reserve being to a corporation precisely what a savings bank account is to the wage earner when the day of stress arrives."

DOWEISM
Alexander Dowle has conceived an invasion of wicked New York city. Not only has he planned an invasion but this fanatic together with many other fanatics has actually started on long trains of cars for the home of Father Knickerbocker to drive the Devil into deep sea and bring shovels into the coffers of the great Alexander Dowle. It is crusade against wickedness for personal gain. Peter the hermit led the host of Christendom against the infidel Turks to save the Holy Sepulcher from desecration but Elijah Second leads his host to make money for Dowle and his chosen deacons. Brigham Young led the hosts of the Mormons to the far west to build homes for themselves and continue the peculiar worship that Joseph Smith had made up from an old novel written by Rigdon but John Alexander Dowle goes for pure monetary gain. Father Knickerbocker had best put bolts and bars on his strong rooms and keep all coin under a close vigilant eye of the officers of the law or the Second Elijah will have it all.

Ten special trains, carrying 3,000 Dowlites, leave Chicago tomorrow afternoon for New York and for the next two weeks public meetings will be held in Castle Garden, and a thorough canvass of the city will determine when the time is ripe for establishing a Zion city in Gotham. There is no lack of zeal in the Dowle movement.

The absence of Chief Hogan from the city was noticeable. There were more street corner loafers, and the town has the air of a wide open town. Sunday morning a covey of boys, under age, were on the streets sobering off, from an all night's debauch. There must be more than one saloon keeper guilty of selling to minors.

The month of September shows a falling off in bulling enterprises of 20 per cent over September of last

year. The largest cities suffer the most. Two causes contribute to these conditions, namely, high priced material, and the unsettled condition of the labor market. The loss comes largely on labor, and it will never be made good.

GAGAN BITES OFFICER FANNING

Tussle in the Lock-Up Last Night, After Arrest of Notorious Character.

While being secured in the city lockup this morning by Officer Fanning, Martin Gagan, a man notorious in local police records, became unmanageable and managed to bite savagely at the officer's hand, catching between his teeth with such force that the skin was cut to the bone on both fingers. Fanning soon freed himself and medical aid was summoned. Dr. Woods arriving a few minutes later to care for the wounded man. Gagan had been arrested near the corner of Fifth and Milwaukee streets and was taken to the jail for drunkenness. The assault occurred at one o'clock this morning, immediately after the arrival of the prisoner at the city hall. Gagan is a member of the Whitehall club, a well known character.

SECOND BIG PUMP AT THE MILL

Will Make a Total of Five Necessary to Keep Out the Water—River Is High.

A second big pump for the Ford mill works was ordered from Chicago the first of the week to help take care of the volume of water which is forced up through the bottom and which comes through the banks and openings in the cofferdam.

Comes Through Clean
The water which springs up from the bottom of the diggings is clear, almost as in Lake Geneva, being filtered of all impurities and mud while coming through the sand and gravel. The continued digging, however, soon makes it resemble the river in color.

Two Lines of Piling
A line of bents has been placed directly across the excavations and marks the place where the outer cement wall of the wheelhouse will be situated. A second line of piling has been started some ten or fifteen feet this side of that line for the purpose of keeping the dirt from caving in when the digging is continued further down.

Broken Shaft
One of the smaller pumps has been out of service for several days past owing to the breaking of the shaft, but the one large pump manages to keep down the level of the water. The last row of sheet piling goes down slowly owing to the nature of the ground beneath the river bottom, which is made up mostly of gravel, some large stones, and sand.

The river has risen considerably during the past week and more dirt was necessary on the embankments to prevent any overflow. Water is now within a few inches of the top.

Mr. Smith with several other well known druggists shook hands with the president. FIRST MEETING HELD TUESDAY

DAUGHTERS OF AMERICAN REVOLUTION AT MISS FIFIELD'S.

CONVENTION HERE NOV. 18

All Regents and Members of the Seventeen Chapters in the State Invited.

On Wednesday, November 18, the Janesville chapter of the Daughters of the American Revolution will be the hostess at the annual meeting of the Wisconsin chapters to be held in this city. Invitations have been sent to all the seventeen chapters in the state and not only have the delegates and chapter regents been invited to attend the meeting but also as many of the chapter members as can come have been asked to attend.

Met Yesterday
The Janesville chapter met yesterday afternoon at the home of Miss Catherine Fifield, on Jackson street. Miss Fifield is the regent of the chapter and as this was the first meeting of the present year the attendance was very good. The chapter now has a membership of sixty-one and many of the new members were present yesterday for the first time. The meeting was a business one as well as a social gathering.

Make Arrangements
The most important business of the afternoon was the plans made for the entertainment of the state meeting of the order. The session will be held in Janesville on Nov. 18th and while the place is not yet designated it will probably be the parlors of the Congregational church. There are seventeen chapters in Wisconsin located at Fond du Lac, Columbus, Stevens, Point, Lake Mills, Beloit, Madison, Waupun, La Crosse, Portage, Wausau, Racine and Janesville.

Last Year's Meeting
Last year the convention met at Fond du Lac as the guests of the Fond du Lac chapter. Previous to this they had always met in Milwaukee as the guests of Mrs. Peck, for many years the state regent. It is expected that the attendance will be very large at the November meeting.

Regular Program
There was a charming literary and musical program arranged for yesterday. Mrs. J. T. Wright was in charge and the subject for the afternoon was Points of Interest of the Early Revolution. Mrs. Claremont Jackson read a delightful paper on the First Cause of the Revolution. She traced many of the causes directly down to the revolutionary period showing just what a part they played in bringing about that great struggle. Mrs. Loomis read a paper on the Battle of Lexington and the work of the minute men in repelling the advances of Lord Percy and his red coats and the gallant fight the farmers made and their final driving of the British back into Boston.

Musical Number
Mrs. James Fifield and Miss Cowles gave a beautiful rendering of Paul Revere's Ride. It was a unique selection and delightfully rendered by the two ladies. At the conclusion of the afternoon's program light refreshments were served.

Y. M. C. A. Entertainment Course
Season tickets for Y. M. C. A. lecture and entertainment course are going fast. Opening attraction Friday night of this week by the Starr Concert Co. Seven fine attractions for \$1.00. Tickets on sale at People's Drug Co., King's Pharmacy, Jones' grocery and Y. M. C. A. building. Sale of tickets limited.

Dancing School
Prof. Kohl's classes meet for the first lesson Friday, Oct. 16, Odd Fellows' hall. Classes at 4 p. m. 7 and 8:30 p. m. All beginners should attend the first lesson.

Worth Considering
Miss Hilda Peterson, the popular young lady clerk at Campbell's grocery, said to a friend recently that over a year ago she had Dr. Richards, dentist, place in her mouth some elegant bridge work. The work, she says, was done painlessly and has given the very best of satisfaction in actual use. "Painless work," together with honest lasting qualities, are two features worth considering when one is debating what dentist to consult.

WIFE DENOUNCED BY COLORED MAN

Louis Smith Left a Farewell Note for Caucasian Spouse—Says She Conspired.

Louis J. Smith, the colored man who was sent to Waupun for fifteen months upon pleading guilty to the charge of killing George Foshia, at Beloit, blames his white wife for his incarceration. She visited him in the jail several times and upon the occasion of her last visit they had a quarrel, at the end of which she affirmed that she would "fix him". The woman took the next car for Beloit.

Leaves Note For Her.
Smith wrote a farewell note to the erring spouse before leaving the jail. He then broke down and wept. On one portion of the note was written the following: "Testimony of the man now sentenced to Waupun for fifteen months for protecting his wife's name which was Olive Torrance of Benton, Mich., who married one L. J. Smith in Grand Rapids has done him by her treachery which she served two husbands in the past and this is the third one. My last words may God bless her in her future life."

Renounces His Wife.
On the other side of the paper was written: "Mrs. Olive Smith:—Now you are Mrs. Olive J. Horn—I know you to be a true and noble woman I don't think." Smith alleges that his wife went to Beloit and conspired against him.

ELKS MAY HAVE NEW CLUB HOUSE

PROMINENT CITIZEN MAY BUILD ONE FOR THEM.

THEY ARE DISCUSSING PLANS

Would Mean Much to Janesville—Elks a Strong National Order.

It is rumored that in the near future the Elks of Janesville may be housed in a home of their own. It is said that a prominent citizen has offered to erect a clubhouse for the order if a certain amount of stock is subscribed by the Elks themselves. The plan was discussed informally by members of the Janesville lodge, No. 254, B. P. O. E., after their regular meeting last night and found much favor.

Prominent Members
Throughout the United States many of the most prominent men in public life are members of the Elks. Colorado Springs has the handsomest club of the order; many thousands of dollars having been expended in visiting other clubs of the country before selecting the design for their own. Senator Clark of Montana is also an Elk and has done much for the Butte lodge. In Wisconsin former Senator Vilas and many other prominent men are members of the Madison lodge.

Strong Order
Should the present plans carry Janesville Elks will have one of the neatest clubhouses in the state. The Elks as a national organization is very strong and the Madison lodge erected a home of their own complete in every particular last year. This cost some forty thousand dollars and has stage and stage settings, as well as dining rooms, bar, billiard rooms, reading rooms, and all the accessories.

A Good Thing
Janesville has no real business men's club and should the present plan be carried to completion it would mean much to Janesville. The local lodge has about eighty members. For the last four or five years they have been holding their meeting in the K. P. hall. Mr. William Wheeler is the present exalted ruler of the lodge.

400 PER CT. PROFIT!

MADE IN MANUFACTURING OUR HORSE BLANKET PINS.

The large mail order houses such as Montgomery Ward & Co., Sears, Roebuck & Co., and Butler Bros., of Chicago, it is expected will sell at least 15,000 gross the first year, on which we make a profit of \$4.00 per gross—just \$60,000 net, or just 24 per cent. on the entire capital stock of the company, which would be 48 per cent. on your investment at 50 cents per share. We are also manufacturing a number of specialties such as Garment Hangers, Pencil Holders, Display Card Stands, Telephone Receivers, etc. (see samples at the Rock Co. National Bank) on which we make a profit of 100 per cent. In addition to this we are now doing a mail order business, and have over 1000 agents who are selling our different products to the consumers.

Our Stockholders are more than confident that our stock will be worth many times its present value within a reasonable length of time, because of the many different things we manufacture. Some think that our large Hook and Eye for horse blankets will be the greatest dividend payer of anything we manufacture at the present time.

DOUBLE POINTING MACHINE.

Profits Made In Manufacturing U-Pin-It Hooks and Eyes [Not including profits mentioned above]

PRESENT CAPACITY	COST OF PRODUCTION	SELLING PRICE	PROFITS
Per day, 200 gross	\$100	\$250	\$150
Per year, 60,000	\$30,000	\$75,000	\$45,000
Our Ten New Machines when completed will give us the Following Results:			
Per day, 700 gross	\$350	\$875	\$525
Per year, 210,000	\$105,000	\$262,500	\$157,000

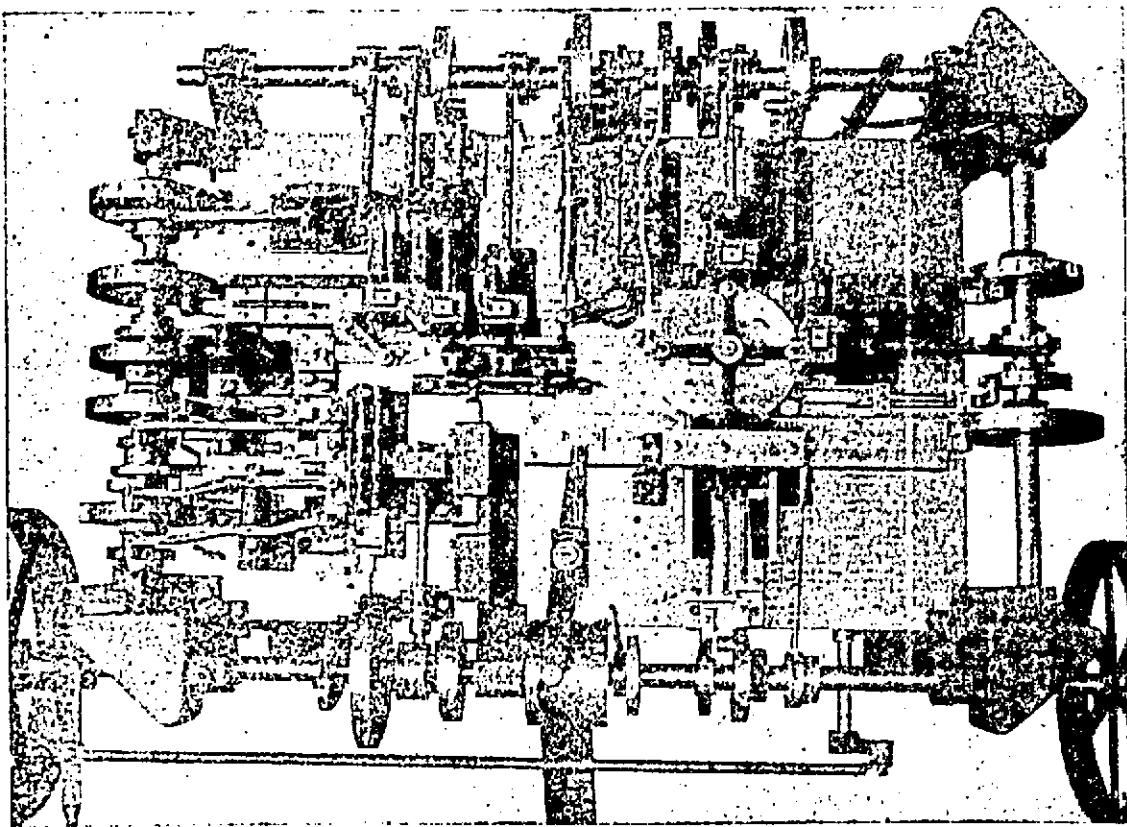

Estimating the office expenses, cost of advertising, etc., at 50 per cent of the profits, with only our present capacity, there should be \$22,500, net profits to pay out on a capital of \$250,000 next year, just 9 per cent on our capital stock. If you purchase stock at 50c a share, you would be receiving 18 per cent on your investment. By adding ten machines the dividends would be increased, as the above figures will show, to 31 per cent on the capital stock or 62 per cent on the investment. These figures do not include the profits made on our horse blanket pins and mail order business.

In figuring the profits on ten machines, it is not to be understood that we will not need more than this number, for we need ten additional machines now. The DeLong Hook and Eye Company have over 50 machines in operation, and employ about 200 people in their plant at the present time.

Thirty-three and one-third per cent of the women who have given the U-Pin-It Hook and Eye a practical test have actually endorsed it; this means that of the 6,000,000 gross or more of hooks and eyes manufactured and sold every year, we will be the producers of at least 2,000,000 gross on which we make a profit of 75 cents to the jobber and \$1 to the retailer.

We are informed that the manufacturers of the 'Hump' Hook and Eye, to be sewed on, have made over \$1,000,000 in profits in the last few years. Their stock has been recently quoted at \$10 per share - par value \$1.

We are the inventors and sole manufacturers of the U-Pin-It Hook and Eye, the only Hook and Eye in the world that positively does away with sewing.

It is not in the least improbable that shares of stock, which are purchased for 50c per share, will within two or three years be worth from \$2 to \$5 each. As a profitable investment for the individual purchaser of U-Pin-It stock, this will, therefore, need no further emphasis than that we CONFIDENTIALLY BELIEVE this advanced figure will be realized. On the basis of 'public spiritedness' the location of our factory in Janesville and the general benefit of the enterprise to its citizens and vicinity will be apparent to you.

CLINTON FAVORS

DR. LOW'S SIDE

A Citizen Writes Concerning the
Doctor Leaving That
Place.

Clinton is still much aroused over the story that appeared in the Gazette some time ago entitled "A Strange Story." Dr. Low, the physician referred to in the story, was said to have left Clinton the day after his wife's funeral. A prominent citizen of Clinton writes to explain the doctor's leaving and shows very clearly that the town was with him in extending sympathy over the sad demise of his wife. The letter says that all the furniture and his wife's belongings were left in Clinton with the understanding they would be removed by the wife's parents, which was afterwards done. That Dr. Low left with his brother, Dr. Joseph Low, a prominent Chicago physician, and went to his home in Kentucky and later to Oklahoma, where he wrote to Clinton friends. Clinton people liked the doctor and are indignant over the suspicion that has been brought against him.

GERMANS TRY TO USE LYNCH LAW

Guards Forced To Fix Bayonets to
Take Prisoners Through
Mob.

Berlin, Oct. 11.—A number of would-be lynchers at Bamberg surrounded the carriage in which guards were taking Andreas Dippold to the penitentiary to begin his sentence of eight years for whipping to death Helmut Koch, son of the director of the Deutsch bank. The mob almost succeeded in getting possession of Dippold, when the guards fixed bayonets and drove their assailants off. Dippold was struck in the back by a piece of metal. Dippold was young Koch's tutor.

ANXIETY AT AMSTERDAM— STEAMER MISSING FOR DAYS

Training Ship for Dutch Naval Cadets Is Over-
Due.

(Special By Scripps-McRae.)
Amsterdam, Oct. 14.—Considerable anxiety is felt concerning the Dutch steamer Argus which is a training ship for naval cadets. The boat has been missing some days.

Man Hurt at Mill: Night watchman at the Ford mill, Claude Murrin, had one of his hands badly burnt last night while on duty. He was replacing a broken electric lamp when the accident occurred. Murrin was let off for the rest of the night and another man was put in his place. He will probably be laid up for a day or so.
